

CRAFTING HOMES with care for 26 years

From laying the first brick in 1993 to transforming a dairy farm called Hazeldean into a node of distinction in Pretoria, Craft Homes has seen the country grow from strength to strength – and the company has grown with it.

Through the years, Craft Homes has been involved in a variety of residential projects, putting its craftsmanship, skill and passion to the test while giving the company an opportunity to learn and improve at every turn. “The team works together with unending determination to ensure every project is a success,” says marketing manager Jessica Cabanita. “I am proud to say we consistently put in double the effort to reach our goals.”

One thing has remained a constant for Craft Homes over the past 26 years: the care that goes into every home the company develops.

Whether it’s a starter home, a family home, or an apartment in a bustling precinct, Craft’s developments are built to withstand

the test of time – providing a space to house the memories most precious to its residents. “We don’t just build homes,” says Cabanita. “We craft them for life.”

SECTIONAL TITLE WITH UNPARALLELED PRIVACY

In Gauteng – where a sectional title is the most popular ownership structure – competition drives ingenuity and innovation.

Craft Homes is proud to be one of the few developers that offer sectional title homes where each unit, section, or house is detached from any other – giving residents the benefits of security and affordability without compromising on space and exclusivity.

With developments in vibrant nodes that include Waterfall Ridge, Melrose View and Pebble Lane, Craft’s sectional titles are perfectly positioned to give residents easy access to arterial roads, public and private schools, and retail options.

ESTATE LIVING WITH FULL TITLE OWNERSHIP

Craft Homes knows that full title ownership comes with more choice and flexibility for home owners, so it offers a range of full title stands in desirable locations for owners who want increased privacy, space and flexibility.

Craft’s core area of focus is to facilitate the buyer’s intent to modify and/or extend both the interior and the exterior of the property to express their vision, style and creativity.

With full titles that include The Ridge in Hazeldean and Heron Banks in the Vaal, Craft offers building packages so residents can enjoy custom-built homes specific to their needs.

THE WORLD AT YOUR DOORSTEP 24/7

Modern living spaces are constantly evolving with consumers’ needs, and in recent years, the idea of mixed-use developments (or precincts) have become increasingly appealing to home owners.

As a live-work space, mixed-use developments blend residential and commercial space, along with retail, entertainment and/or cultural uses – giving residents a fully integrated pedestrian hub.

Craft Homes is proud to be at the forefront of nodal developments such as Hazeldean and Sandton Gate, where it plays the leading role as a residential developer within a greater lifestyle precinct.

Craft Homes continues to push the boundaries of innovative residential spaces, giving home owners inspired spaces to truly enjoy life.
